

REC Thailand
by GMS Solar

**Empowering Green Energy Transition
with Renewable Energy Certificates**

ผู้ช่วยในการเปลี่ยนสู่พลังงานสีเขียวผ่านใบรับรองการผลิตพลังงานหมุนเวียน

 www.recthailand.com

Introduction

REC Thailand specializes in helping companies in Thailand use 100% renewable energy & reduce scope 2 carbon footprint.

-  Leading authorized I-REC trader & broker of Renewable Energy Certificates (REC)
-  Our RECs are registered by I-REC, issued & approved by EGAT (Electricity Generating Authority of Thailand)
-  Part of GMS Group, based in Bangkok, Thailand, a leading player in the country's energy sector for over 2 decades.

What is REC?

Renewable Energy Certificates (REC) is a tracking mechanism & tradable instrument that represents the right to green attributes of electricity generation.

1 REC = 1MWh of clean electricity

- ⚡ The RECs can be purchased according to your electricity consumption.
- ⚡ When RECs are paired with electricity from the central grid, renewable energy is being generated on your behalf.
- ⚡ Companies can then reliably claim their usage of renewable energy.
- ⚡ Used interchangeably with **Energy Attribute Certificates (EAC)**

This Redemption Statement has been produced for

[Your company name]

by

GMS SOLAR COMPANY LIMITED

confirming the Redemption of

[Volume of REC in MWh]

I-REC Certificates, representing [volume] MWh of electricity generated from renewable sources

This Statement relates to electricity consumption located at or in

[Your address of REC consumption]

in respect of the reporting period

[Consumption period]

The stated Redemption Purpose is

Scope 2 Reporting

QR Code Verification

Sample Renewable Energy Certificate (REC)

Why Renewable Energy Certificates?

Your company could benefit from using renewable energy through I-REC. Here are some compelling reasons RECs could be a compelling consideration for you

Economical - REC does not require a large amount of CapEx investment.

Flexible - option to purchase REC every year, every quarter, or every day.

Scalable - REC can be bought exactly to your company's consumption each year.

Technology Options - solar, wind, hydropower, or biomass

What does REC Thailand Do?

REC Thailand is a REC trader, broker & aggregator based in Bangkok with a fully experienced consultation, advisory & energy expert team.

For Corporates

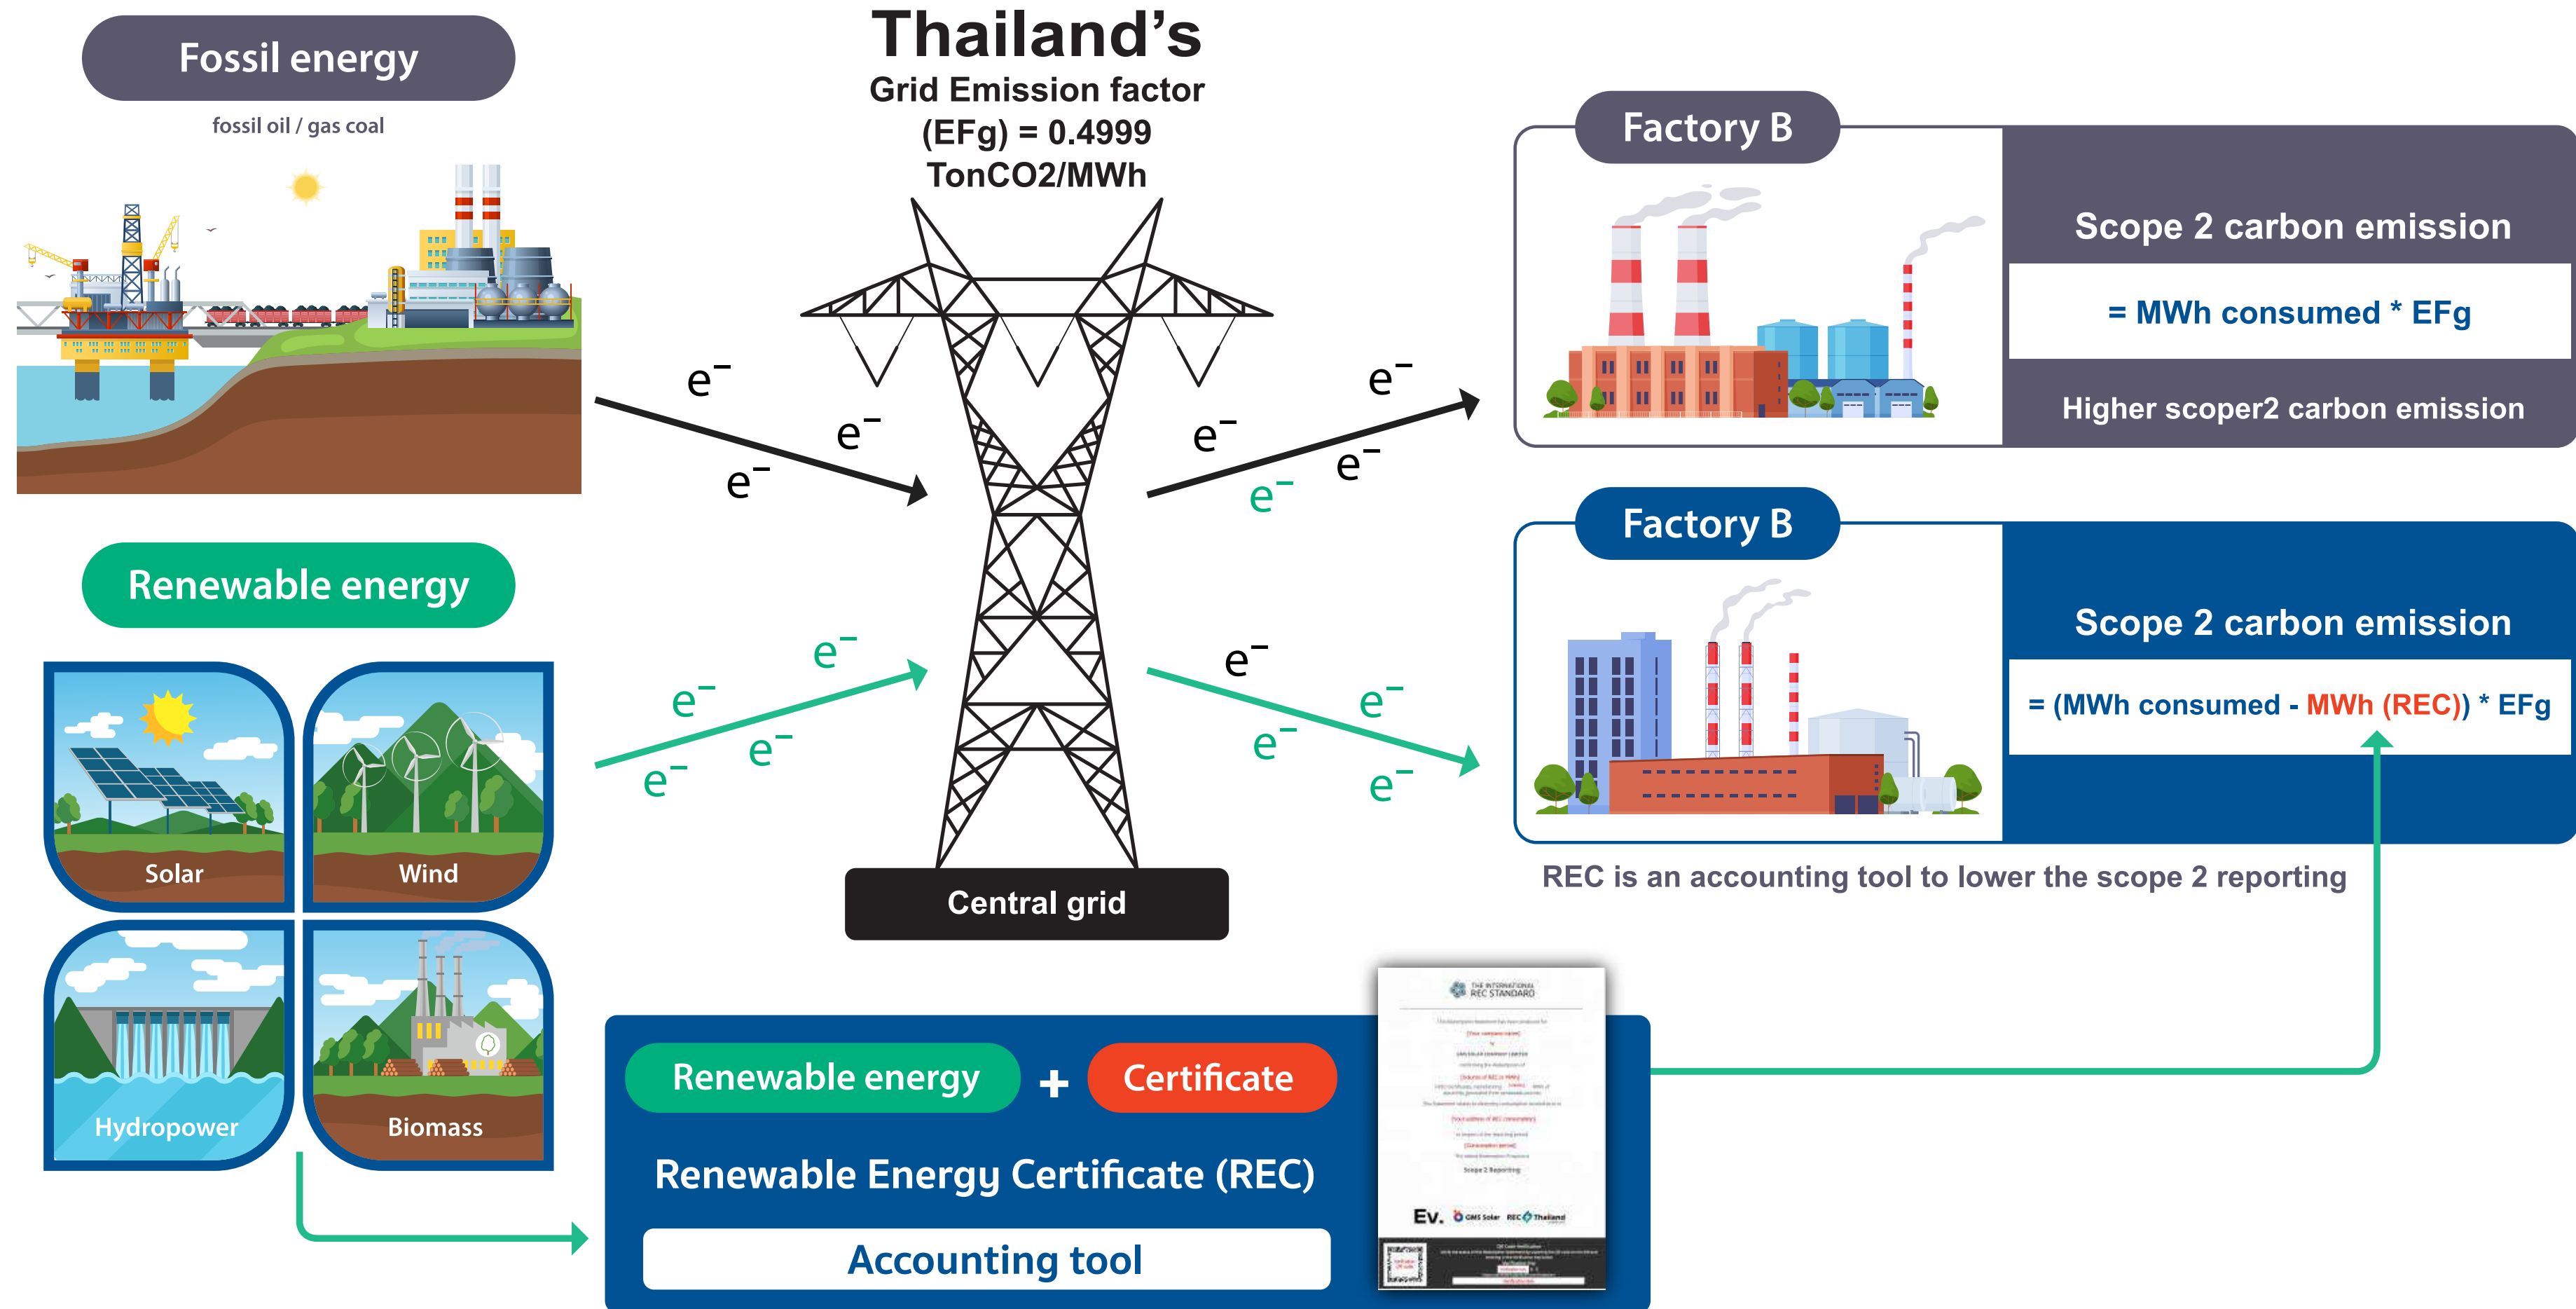

we help source the REC & redeem it on behalf of the company.

For Asset Owners

we help register your energy production device & find potential buyers for you.

We are an I-REC Registrant & I-REC Participant with focus on the **Thai & Singaporean market.**

A Flowchart of How REC Works

For 100% renewable energy, purchase REC equivalent to MWh consumed.

How to obtain REC?

Obtaining REC with REC Thailand is simple,
just let us know your requirements

**How many MWh of electricity
do you consume per year?**

**Which year of REC consumption
would you like to purchase?**

**Do you have any preference
for REC technologies?
(Solar, Wind, Hydropower & Biomass)**

**What is your reporting standard?
RE100, SBTi, etc.**

Just with these questions answered, our team would be able to assist you in obtaining your OREC. If you're unsure with any of these questions, we also have a team to guide & consult with you to ensure your path to 100% renewable energy is achieved with best practice.

What are the available RECs?

Reach out to us for the quotation of the follow RECs

Technology	Location	Vintage
 Solar	Thailand	2022
 Solar	Thailand	2023
 Solar	Thailand	2024
 Wind	Thailand	2023
 Hydropower	Thailand	2022
 Hydropower	Thailand	2023
 Hydropower	Thailand	2024
 Biomass / Waste to Energy	Thailand	2022
 Biomass / Waste to Energy	Thailand	2023
 Biomass / Waste to Energy	Thailand	2024
 Solar	Vietnam	2021
 Solar	Vietnam	2022
 Solar	Vietnam	2023

About GMS Group

REC Thailand

by GMS Solar

REC Thailand is a part of GMS Group, a leading player & solution provider in Thailand's energy sector for the past 2 decades. In addition to REC Thailand, our 2 core companies are:

GMS Interneer

Established in 2002, we are proud to introduce world-class oil & gas equipment to the Thai Exploration & Production Industry, which is an integral part of the supply chain for the industry that supplies gas to fuel 70% of Thai electricity generation.

GMS Solar

Established to accelerate Thai corporates' goal of Carbon Neutrality & the road to NetZero. With more than 20 years of experience in the Thai energy sector, we are now ready to be a part of the Greater Mekong Subregion's green energy transition.

Somkiat Chaisrirattanakul
Managing Director

Mr. Somkiat is a highly accomplished executive with over 30 years of experience in the Thai energy market. With proven track record of leading and driving sustainable initiatives, his wealth of experience brings invaluable insights to the REC industry.
